Objective

I am computer Engineering student seeking for the position of Computer Science in- tern to hone skills and contribute exper- tise in a corporate environment. Coming with great teamwork and familiarity with several programming languages.

Education

Sinhgad Institute of Technology (SIT) Pune
2021 - Present
B.E.-Computer Engineering

Institute of engineering and Technology Kannad
2018 - 2021
Diploma in Computer Engineering

Skills

Java
SQL
Data Structures
Java Applets
Java AWT
Java Enterprise Edition
Git
Github
Problem Solving
Team Leadership
Design Thinking
Figma , UI/UX
Android Development
Python
Version Control

Projects

❖ **Simple personal voice assistant**
Created a Python script that could listen for and execute user com- mands. This script was capable of performing simple activities such asopening programmes and searching on Google.

❖ **Covid vaccination finder/ Locator app in android**
I created this project during a pandemic when covid 19 immunization was beginning and people were rushing to get vaccinated. This soft- ware is designed for Android. This app provided information about thenearest vaccination centers based on the supplied PIN code.

❖ **Face Detection application using Python**
Using some python, I created a simple facial detection software. I wasable to recognize people's names as they entered the camera.

Achievements

- 2nd Prize for Our 2018 Batch's SSC Exam Performance
- Won the 1st prize in the college gatherings Carrom competition.
- 3rd place in our class for the computer engineering diploma.
- Received a runner-up certificate from the ACES clubs Techno quiz atthe SIT Lonavala.
